

# Save a Penny, Save The World

A penny is money, and yet it is not. What does an individual penny buy, these days? Nothing! ...Well, not *quite* nothing. One penny still buys a soul; and another, safe passage over the River Lethe.

But apparently nobody told various well-meaning mortals this, because a bunch of countries went ahead and eliminated the coinage that would let their citizens go on to the Afterlife. Eventually, inflation will rectify matters. But until then, the overcrowding on that grim shore is *horrific*.

And that, Senator, is why you should vote 'no' on this bill. I thank the Committee for its time.
