

Do you WANT Supervillains? Because...

Our alien overlords had only one major flaw, but it was a doozy: they didn't 'get' insanity. They weren't always perfectly logical, but they prized rationality. Everything they did had a reason.

Yeah, I don't know why they tried to keep Earth, either. Maybe they figured that once they took over, they'd be better off trying to keep the place -- which, hey, turned out to be right! Anyway, the aliens figured the best way to control humanity's insanity was to wipe out all the insane people. Which ended up not working; it just selected for mad geniuses. Sneaky ones.
