

# Ghost State

*You* try vanishing an American state from the historical record sometime. I don't mean mundane ones, like Franklin or Jefferson; they didn't quite have enough civic *pneuma* to become states in the first place. We didn't redact *them*, because why bother?

But there is an American state which most of you have never heard of (no, it is *not* hidden away in the middle of the country). Its citizens have no idea their cities and sports teams and the rest appear in no records. It is, in short, a ghost state.

Why? Well, sometimes a nation needs an Unhallowed Hand.
