

# A Rocky Start

Finding the right stone was the hardest part. After all, when you're going to put the first murder weapon in the hands of the first man, you want it to be **perfect**. This was all about destiny, or at least fate. A proper damnation needed a proper tool.

So it was a bit of a catastrophe when the potential First Murderer instead used the ever-so-carefully chosen rock to distract a carnivore from snacking on the potential First Victim. Oh, sure, there was another opportunity for murder later. But the demon always thought his **rhythm** was off, from that day on.
