

God Mode

So, this is the afterlife. It turned out to be my life, only editable. I can insert myself into any point in my lifetime's personal history, with all my memories and skills intact.

Fully interactive, too. If I change something in my past, the changes are permanent. There does seem to be a kind of inertia, so it's not fully butterfly effect, but I can absolutely make things different, 'this' time. Oh, and I can't die. If I do a damfool thing, I just go back to any other previous point.

Still haven't decided if this is Heaven, or Hell.
