

Fireship

The vessels fire elementals craft to sail the Ignited Sea are some of the most beautiful artifacts you will ever see.

Salamanders carve and weave fire the way we do solid matter; every piece of their fireships *are* fire, from roaring rudder to blazing topsail. Such an inaccessible beauty!

Alas, they can't exist in our dimension, any more than our ships could survive in theirs. I *do* have an imported memory-spell of one of their captains navigating an inferno storm, though. I traded it to her, in exchange for my own epic voyage around Cape Doom.

...Such an inaccessible beauty.
