

# Rationalization

They will pay anything for a taste of our power. *Anything*. Including, stupidly, an eternity of servitude.

I know. How dare we make that trade? Well, how dare they *offer* it? We do not seek them out. They come to us, no matter how hard we make the process - and we make it harder every year. They slip through, eager to trade their souls without once asking if sensible creatures would want them.

Unfortunately, some of us are not sensible.

That is not an excuse, I know. But it is better to regulate this situation than simply let anarchy reign.
