

Scorpio Five

Scorpio Five has been humanity's dumping ground for a thousand years. It's a one-way trip, you see. The planetary system can support human life, but it's too far for two-way hyperspace travel. Once you warp in, you're stuck there forever.

Prison planet? Friend, Scorpio Five has been *everything*. Prison planet, quarantine zone, bolthole: there's one continent that got taken over three hundred years ago as the ultimate rich-person getaway, and it's still going strong. If it's wiser to send somebody here than kill him, they send him here. You just have to be worth the trouble.

...Things get *exciting* here.
